

Thursday					
8:00 AM - 8:30 AM	DE&I - 1	Legislative and Regulatory Update	Disinfection Today	Designing for Increased Resiliency in a Coastal Community: A Case Study	Transition of a Newly Expanded Utility
8:35 AM - 9:05 AM	DE&I - 2	Managing your Activated Sludge Inventory	Droplets of Water Part I	Digital Twin in Action: How it helped New Bedford Reduce and Report Sewer Overflows	Financial Basics for the Small Community
9:10 AM - 9:40 AM	DE&I - 3	Maximizing the Impact of Your Lead Service Line Replacement Project Through Customer Prioritization and Collaboration		Regional Sanitary Lift Station Design and Construction - A Collaborative Approach	Moving Targets: Utility Planning in a Rapidly Changing City.
9:40 AM - 10:10 AM	Break to Exhibitor Hall				
10:15 AM - 10:45 AM	DE&I - 4	Midge Flies, are they just a pest?	Droplets of Water Part II	16 Tech Lift Station - Sewer Planning, Design, and Construction for Development in a Revitalized Urban Center	The Yellow Cake Principle: Your Recipe for Influence and Success
10:50 AM - 11:20 AM	DE&I - 5	More Than Just Alarming Modern Monitoring Solutions Help Utilities Optimize Assets with Data	Droplets of Water Part III	I-69 & I-465 Interchange – Large Sanitary Sewer and Twin Sludge Line Relocation – AKA, The Exciting Part Buried Under the New Freeway	A Gen Z's Perspective on the Wastewater Industry
11:20 AM - 1:30 PM	Lunch/Awards				
1:30 PM - 2:00 PM	AWWA - 1 Cybersecurity Training	Optimizing Utility Administration	Chemical & Physical Process	Lessons Learned from Sanitary Sewer Relocations in a Complex and Crowded Corridor	Ethics in Engineering
2:05 PM - 2:35 PM	AWWA - 2 Cybersecurity Training	Optimizing your Asset Management Plan – Making the most of your maintenance budget	Three Years and Nearly Three Million Dollars Later, a Pretreatment Enforcement Case Study from Indianapolis	Large Diameter Force Main Design Considerations: Case Study in Gary, Indiana	
2:40 PM - 3:10 PM	AWWA - 3 Cybersecurity Training	When in Doubt Aerate, Right?		Maximizing In-Line Storage in Kokomo's Prairie Creek Interceptor using an Electraulic Actuated Gate System	
3:10 PM - 3:40 PM	Break to Exhibitor Hall				
3:45 PM - 4:15 PM	AWWA - 4 Cybersecurity Training	Planning For Operation & Maintenance of Remote Storage Tanks: Analysis of Fourteen Years of Collection System Sensor Data & Impacts of a Wetter Climate	Regulating Industries & Protecting POTWs Without Pretreatment Programs	Howard Roosa Sewer – A Non-Traditional, Flexible Approach to Salvaging an Almost 100-Year-Old Sewer Under Challenging Circumstances	Statutes Engineering
4:20 PM - 4:50 PM	AWWA - 5 Cybersecurity Training	Power Quality and Pumps...Is your power killing your pumps?	Being Prepared for Pretreatment Desk Audits, PCIs and In-Person Audits	The Sewer Whisperer: "Listen Carefully, Your Sewer is Talking to You"
