Full Job Description

KERAMIDA Inc. is seeking motivated, qualified and skilled staff in wetlands, storm water and natural resource permitting associated with construction activity, in order to ensure construction projects run smoothly according to all applicable regulatory requirements. The ability to communicate clearly and succinctly, both orally and in writing is critical to succeed in this position. The desired candidate must have a high-level of experience and technical knowledge necessary to write permits and perform environmental inspections. In particular, the Environmental and Natural Resource Permitter will prepare permit and plan documents for a wide variety of construction projects, primarily associated with an electric and gas utility. Specifically, these will include stormwater construction permits, wetlands (401/404) permits, stormwater pollution prevention plans (SWPPPs), environmental construction plans and related documents.

Successful applicants must have a college degree in Natural Resources, Environmental Engineering or similar degree. Must have two (2) to five (5) years' experience in Environmental and Natural Resource permitting. Certification as a Licensed Professional Engineer and a Certified Professional in Erosion & Sediment Control (CPESC) is a plus. Experience in utility

Natural Resource Permitter-South Bend, Indiana

construction generally and electric transmission and substation construction specifically is a plus.

JOB DESCRIPTION:

- Works in or near the South Bend, Indiana area.
- Performs work in accordance with KERAMIDA's safety policies and procedures.
- Manages submittals and interacts professionally with the regulatory authorities while maintaining the objectives, interests, and budget of the project.
- Assures prompt and direct compliance reporting and/or actions to resolve concerns in a satisfactory and timely manner.
- Prepares Permit Applications for Stormwater – Construction, Wetlands, and related activities.
- Prepares and coordinates the preparation of Storm Water Pollution Prevention Plans, Environmental Construction Plans.
- Communicate effectively with various stakeholders to assure timely completion of projects.

ESSENTIAL DUTIES:

- Operates a motor vehicle to assist in carrying out job duties.
- Evaluates sites for the purpose of permitting.
- Maintains accurate records of time spent on site, completing reports and mileage for billing/reimbursement by Client.

QUALIFICATIONS:

- Requires a Natural Resources or related Science degree.
- Requires two (2) to five (5) years' experience as an Environmental and Natural Resource Permitter.
- Must be proficient in federal, state & local regulations; types of permitting; permitting application requirements for construction activity, industrial activity, and municipalities.
- Ability to effectively communicate technical information, orally and in writing, in a professional manner to contractors.

PHYSICAL DEMANDS:

- Must be physically capable of moving about construction work sites.

Job Type: Full-time

PAY RANGE:

\$31.70 per hour to \$38.71 per hour, depending upon experience. Overtime will be paid for work in excess of 40 hours per week.
